PROFESSIONAL SUMMARY

Certified **AWS DevOps Engineer Professional** with **4+ years** of hands-on experience designing, provisioning, and operating high-availability, cloud-native infrastructure on AWS. Expert in **Infrastructure as Code (Terraform, CloudFormation, CDK)**, container orchestration (**Kubernetes EKS, ECS/Fargate**), zero-downtime CI/CD automation, and multi-region cloud architectures. Proven track record of accelerating deployment speed by 40%, reducing AWS infrastructure costs by 35%, and managing production environments for startups and global enterprises.

TECHNICAL EXPERTISE

Cloud Platforms	AWS (EKS, ECS, Lambda, EC2, S3, RDS, Aurora, DynamoDB, SQS, SNS, CloudFront, Route 53, ALB, OpenSearch, Secrets Manager)
Infrastructure as Code	Terraform, AWS CloudFormation, AWS CDK, Pulumi, AWS SAM
Containers & K8s	Kubernetes (EKS), Amazon ECS / Fargate, Docker, Helm, Container Security
CI/CD & DevOps	GitHub Actions, Jenkins, GitLab CI/CD, Azure DevOps Pipelines, AWS CodePipeline, GitOps
Automation & Security	n8n, Webhooks, Python, Shell/Bash, SonarQube, Veracode (SAST), SSM Parameter Store, IAM Security
Observability & Net	Prometheus, Grafana, AWS CloudWatch, PagerDuty, Squadcast, VPC, NGINX, ALB/NLB, NetScaler

PROFESSIONAL EXPERIENCE

Infrastructure Architect / Lead DevOps — Medzen Innovations June 2025 - Present | Remote

- Architected and delivered greenfield production AWS infrastructure (ap-south-1) via **Terraform IaC** for a fast-growing medical academic writing and clinical research platform.
- Provisioned multi-node **EKS & ECS Fargate** clusters, Aurora Serverless v2, Redis Cache, ALB with ACM SSL, and CloudFront CDN, supporting seamless writer-client submission portals.
- Built dual **GitHub Actions CI/CD pipelines** automating Terraform plan/apply and containerized backend deployment to ECR/ECS with auto-scaling triggers.

DevOps Engineer — Amazon June 2024 - June 2025 | India

- Orchestrated production microservices on **Amazon EKS** and **Amazon ECS**, implementing horizontal pod auto-scaling (HPA) and multi-AZ failover for critical customer-facing services.
- Led infrastructure migration from Citrix NetScaler to **Tardigrade Load Balancer** using CloudFormation and CDK, achieving zero-downtime cut-over.
- Executed regional cloud expansion from **Ireland (eu-west-1) to Spain (eu-south-2)**, provisioning SQS, DynamoDB, RDS, Lambda, and OpenSearch with zero data loss.
- Engineered **EventAggregatorLambda** service in Python, automating ticket diagnostic comments across Weblab and MCM to reduce incident resolution MTTR by 25%.

Server & Network Engineer (AWS DevOps) — Infiniti Research May 2023 - May 2024 | India

- Built end-to-end 3-tier serverless architectures leveraging AWS Lambda, API Gateway, Aurora Serverless v2, and SAM templates.
- Automated enterprise CI/CD pipelines via **CodePipeline, Azure DevOps, and EKS**, reducing deployment cycle times by 30%.
- Enforced DevSecOps practices integrating **SonarQube and Veracode SAST audits** directly into build pipelines to block security vulnerabilities prior to production releases.

Freelance Cloud DevOps Engineer — Self-Employed

Jan 2023 – May 2023 | Remote

- Migrated high-traffic payment processing microservices from Elastic Beanstalk to **AWS Fargate**, cutting server management overhead and improving autoscaling responsiveness.

DevOps Engineer — PondyBiz Technologies

Jan 2022 – Dec 2022 | India

- Configured multi-stage Jenkins and GitLab CI/CD pipelines for Node.js, Vue.js, and Ruby on Rails applications.
- Designed automated S3-to-PostgreSQL ETL migration scripts and NGINX reverse proxies for high-throughput API gateway routing.

INTERNATIONAL & FEATURED PROJECTS

Subscribe & Save (Amazon Global) Contributed to global high-traffic recurring shipment microservice supporting millions of active worldwide customer schedules. AWS Lambda · ECS · DynamoDB · CloudWatch	SmartCare Platform (Sweden) Managed AWS cloud infrastructure for digital healthcare platform processing medical, clinical, and pharmaceutical data under EU compliance. Terraform · AWS EKS · RDS · Compliance
Quantzig Analytics (USA / UK / Canada) Operated multi-region AWS infrastructure for SaaS analytics platform serving enterprise market research clients across 5 countries. Multi-Region AWS · CloudFront · SQS · Python	WhatsApp Business Automation Engineered self-hosted n8n workflow engine integrated with WhatsApp API for automated notification triggers and webhooks. n8n · Webhooks · Docker · API Gateway
